President Pro Tem Oszakiewski quoted a letter from Trustee Rick Symonds:

Recently, long-time Public Works employee Timothy Dalton was charged with the task of cleaning the channel from the 71st Street Ditch to the I&M Canal.

Upon investigating the lack of productive flowage from the I&M Canal to the Sanitary & Shipping Canal, Tim discovered some illegally built structures including a dam and a dock or small bridge that were seriously impeding the course of the flow.

Tim immediately reported the discovery and promptly set about removing the structures that were blocking the flow and would have backed up drainage into the Canal and in turn the 71st Street Ditch.

Had there been a heavy rainfall before these structures were discovered and removed, the consequences for many residents in proximity to the 71st Street ditch would have been disastrous.

Due to Tim Dalton’s diligence serious flood damage to numerous properties was averted.

On behalf of the Board of Trustees, I want to sincerely thank Tim for his efforts and congratulate him on a job well done! His initiative prevented an outcome that would have been damaging and costly to many residents of the village.
Chairman Oszakiewski commented about the photos of the structures removed by Tim Dalton. It was outrageous that someone would construct such impediments to the natural flow. It was a good thing they did not go unnoticed.

Chairman Oszakiewski noticed that the approval of minutes on the agenda was inadvertently omitted, so we will handle that now.
