Public Works is finishing up all asphalt projects doing smaller repair where necessary. We may have an opportunity to complete one smaller project if the weather holds.

Thank you to all municipal officials who attended the three-hour training on Saturday administered by Treasurer and Financial Consultant Kelly Zabinski. All donated their time to be instructed in the use of the new operating software.

Trustee Warner asked that a communication regarding a follow up on the recent reissue of a check before it was stopped or returned to us be read.
Karen wrote, "If for some reason a replacement check needs to be issued, a stop payment should be done first, providing that we are not in custody of the original unpaid item. In the case of a lost check, only after a stop payment is in place should a replacement be done. To skip that step, puts two negotiable instruments out there and opens the Village up to having both items cashed."

If any Veterans did not receive an invitation to the Veterans’ luncheon and would like to attend, please call the village Finance Office this week.

The kick-off meeting for this year’s Winter Wonderland is scheduled for Monday, October 29th at 6:30 pm in the Finance Office. Volunteers are welcome and are encouraged to attend.

Trustee Kuban explained that this is an approval of a memorandum of understanding that confirms both entities agreement to their respective responsibilities in providing the tollway ramps.
Economic Development Director Matt Zarebczan read the press release for the event that was held, memorializing the MOU.

On October 16, 2018 the Illinois Tollway joined U.S. Representative Daniel Lipinski and officials from the Illinois Department of Transportation, Cook County and the Village of Justice to recognize a multi-governmental partnership to advance planning and construction for a new, long-envisioned Tri-State Tollway (1-294) Interchange at 88th Avenue/Cork Avenue in Justice.

In support of the multi-governmental commitment, the Tollway, Village of Justice, Cook County, IDOT and federal government are signing a memorandum of understanding to proceed with building the interchange. Consistent with the Tollway’s Interchange Policy requiring local communities to cover half of the cost of interchange improvements, estimated $30 million project cost will be shared by state and local partners. The next step to move the project forward will be approval of an intergovernmental agreement to establish funding and participation for the project.

The project is compatible with Cook County’s long range Invest in Cook Initiative to encourage business development and growth by improving freight and traffic connections across the country. The new interchange will encourage new construction and support job creation in the village, as well as opening an entryway to Justice and other surrounding communities to relieve traffic congestion and provide easier access destinations.

With the support of the Southwest Conference of Mayors, the Village of Justice has completed preliminary engineering and environmental studies for the addition of a northbound exit ramp from 1-294 and a southbound entrance ramp to 1-294 and the next phase of additional engineering studies will be done by Justice. This work also will be compatible with a future northbound 1-294 entrance ramp from Archer Road. Along with the new ramps, the project includes intersection improvements along 88th/Cork Avenue at 79th Street and Archer Road.

MOTION: Trustee Kuban Moves: To approve the business license of BIZ, Inc. to operate as an Accounting Office at 8648 Roberts Road, Unit 101, Justice – contingent upon passing all final inspections.

School District 109’s Resurrection Run was a resounding success. Mrs. Orella Good biked the route as usual and won in her class being 90+ years old. A good time was had by all.

MWRD and DEA are sponsoring a drug collection at 6001 W. Pershing Road in Stickney, on Saturday, October 27th from 10:00 am until 2:00 pm.
We are working on a Safe Routes to School Grant to replace or provide sidewalks where needed for those that walk to school. Surveys were provided to parents and teachers of students in District 109 in order to gather the most pertinent information.

Plans for the Veterans Luncheon are proceeding well. Does anyone know a Gold Star mother in the village? We would provide a Gold Star Flag to her, if one is identified.

Mayor Wasowicz wants to ask District 109 for assistance with stormwater detention at the large parcel purchased at 80th from Roberts Rd. to the Wilkin’s School property. Trustee Rusch stated he thought the request was communicated to Engineer John Hoefferle for evaluation at a recent meeting. The District is interested in obtaining access to the old Anthony Oil property for parking. An agreement for mutual benefit may be possible. Trustee Sparr and Trustee Kuban offered to explore the opportunity.

**ATTORNEYS’ REPORT:**
Attorney Mike Cainkar had no formal report.

**CORRESPONDENCE:**
Clerk Small read another communication from Trustee Warner.

"It has recently come to my attention that there are requests for vendor checks to be returned to the requesting department for disbursement to the vendor. I discussed this practice with our Treasurer and she stated that this is not a good practice to have. We agreed that effective immediately, this practice will cease. If a vendor wishes to pick up their check, it is to be coordinated with the finance office. The vendor will be required to give the name of the person who will be picking up their check. That person will be required to have a letter stating such on corporate letterhead and will be required to show identification. Finance staff will put the letter with the sign-off by the person picking it up with the invoice for our records. We also request the sign-off to be dated. Having checks sent back to the requesting department is not a good accounting practice and negates some of the checks and balances that are currently in place. Additionally, employees picking up checks for vendors and holding them create liability on behalf of the Village, as not all staff are bonded."

Building Commissioner Ed Shilka asked for a clear policy in print that could be provided to vendors so there is no confusion.
