

NEW JUSTICE POLICE DEPARTMENT POLICE VEHICLE DESIGN

Justice Police Cars Get a New Look

Vinyl wraps are now being utilized to achieve a new look for the Justice Police Department's squad cars. Vinyl wraps are an innovative new method in the graphic arts industry used as an alternative method to an expensive custom paint job.

Advantages to vinyl wraps include:

- Reduction in cost; half the cost of custom paint
- Reduction in installation time; they install within hours
- Removal of wrap in minutes when the life of the vehicle expires
- No special care needed
- Will stay glossy without waxing
- Ability to develop a more creative design

In addition, Justice Police Department is the first police department in the Chicago area to use vinyl wraps on their police units and has received compliments from surrounding communities on our new design. Justice is very proud to be the first community to embrace this new technology.
