

Robberies in shopping mall parking lots

If at anytime someone approaches you in a parking lot and asks you to sample some cologne or perfume immediately refuse and get away from them!

Here is how this scam works:

They will approach you saying they have a new scent they are marketing and would like your opinion; they then spray it in your face. What they are spraying is something to knock you unconscious in order to steal your purse, wallet, car, or whatever you have in your possession!

There have been no reports of this in our area that we are aware of, but given time it will make its way to us! Be prepared. This is fast becoming popular among thieves!
